PROFILE

Operations and business analysis professional with 8+ years of experience in international environments, including the **Bank for International Settlements** (Basel) and **Stuart (DPD Group)**. Combines project coordination and stakeholder management with strong hands-on reporting skills: built **50+ dashboards** in Excel, Power BI, Tableau, and SQL. Track record covers resource and capacity planning, financial controls (**EUR 500,000+ monthly payouts, 100% accuracy**), programme coordination (**CHF 200,000 budget**), and analysis presented directly to general management.

PROFESSIONAL EXPERIENCE

Independent Projects & Intensive French Studies

09/2025 – present

Nyon / Lausanne, Switzerland

- Completing a **full-time intensive French programme** (Interlangue & Voxea, Lausanne; 17.5 h/week), progressing from A2.1 to B2.1 in four months.
- Designed and built a **five-module household operations platform** (investments, insurance claims, budget, lab results, plants) with AI-assisted claim-document intake and human-in-the-loop review — product design, data model, workflows; in daily use. Case study: **jakubsykulski.com**.
- Built a French-learning web app converting photos of handwritten class notes into structured vocabulary cards and revision sheets; AI-assisted development with Cursor and Claude Code.

Operations Manager

11/2024 – 08/2025

Bank for International Settlements (BIS), Innovation Hub — Basel · fixed-term contract via Swisslinx AG

Innovation Hub Strategy Team: planning, coordination, and reporting for cross-border innovation initiatives delivered by globally distributed teams.

- Supported coordination of strategic projects across **eight global innovation teams**: planning calendars, trackers, documentation, and follow-up on deliverables across multiple time zones.
- Built **planning templates and data structures** for resource and scenario planning, aligning delivery goals with available capacity.
- Prepared reporting, presentations, and analysis for the **Head of the Strategy Team**, informing resourcing priorities and delivery timelines.
- Coordinated the **BIS Academia Workshop (CHF 200,000 budget)**: planning, stakeholder and event coordination, final reporting and documentation.

Strategy board games & chess · building AI-assisted data tools · tropical plants

Operations Manager / Business Analyst

03/2021 – 04/2024

Stuart (DPD Group) — Warsaw, Poland

Tech-driven last-mile delivery scale-up (1M+ parcels weekly internationally).

Operations across seven Polish cities; network grew from 120 to 800 couriers, delivery volume +600%, 6,000–7,000 daily deliveries.

- Built **50+ dashboards and reporting tools** (Excel, Power BI, Tableau, SQL) tracking KPIs, costs, delivery performance, service quality, and profitability — used for daily operational and management decisions.
- Delivered analyses and presentations directly to **Stuart Poland's General Manager**, including centralised courier compensation ("multiplier") management supporting demand-based pricing decisions.
- Automated weekly reporting at scale: **SQL-to-Excel-to-Mailchimp** pipeline for 800+ couriers (personalised earnings, rankings, metrics) and **SQL-to-Excel-to-PowerPoint** KPI presentations for partner restaurants.
- Managed **EUR 500,000+ in monthly courier payouts**; automated verification processes, reaching **100% payout accuracy**.
- Strengthened financial controls on **~EUR 350,000/month** in courier card transactions with Data and Finance teams, **reducing losses by 50%**; supported integration of a new payment terminal provider.
- Coordinated capacity planning and shift allocation for **700–800 weekly couriers** with City Managers across seven cities; **trained City Managers and colleagues** on dashboards and reporting tools.
- Supported expansion into **five new cities**: market analysis, rollout tracking, launch frameworks, operational playbooks.

Operations Executive

09/2018 – 01/2021

FlixBus — Warsaw, Poland

- Managed relationships with **20 bus partner companies**, ensuring compliance with company standards.
- Built Power BI dashboards analysing **NPS and customer feedback** across partners, routes, and stations to support operational decisions with the Head of Operations.

Junior Supply Chain Specialist

04/2018 – 08/2018

Alstom — Warsaw, Poland

- Supported supply chain operations through reporting, data management, and documentation in a multinational manufacturing environment.

Supply Chain Planning Intern

2017 · 2015

Reckitt — Warsaw, Poland

- Supported planning and process improvement through reporting and data analysis (10–12/2017 and 07–09/2015).
